Generous Croesus. (From the Chicago Tribune.) Croesus glowed with a generous impulse. I feel that I ought to do something for the happiness and well being of my people," he exclaimed. "I have it! I will advise them not to eat so much!" Herein we perceive that Mr. Croesus has nothing on the illustrious King of Lydia.

She Had Consumption, Was Dying; Now Well

Ekman's Alternative is being used with success in the treatment of Tuberculosis in all parts of the country. Persons who have taken it improved, gained weight, exhausted night sweats stopped, fever diminished, and many recovered. If you are interested to know more about it, we will put you in touch with some who are now well. You can investigate and judge for yourself. Read of Mrs. Gove's recovery.

"Gentlemen: Thinking that perhaps a short history of the remarkable recovery of my mother-in-law (Mrs. Anna Gove) might benefit some other sufferers, I give the following testimonial. About September 10, 1908, she was taken sick with Catarrhal Pneumonia, and continually grew worse, requiring a trained nurse. Night sweats were so bad that it was necessary to change her clothing once or twice every night; her cough increased and got so bad that she could not sleep. I was told that she would not live much longer. In January, when Rev. Wm. Beck of St. Michael's Church, at Shreveville, Ind., prepared her for death, he recommended that I get Ekman's Alternative, and see if it would not give her some relief. I then requested the attending physician to give her the diagnosis, and he informed me that she had Consumption and was beyond all medical aid. When I asked if he thought it would be useless to try the Alternative, he replied that 'No physician could help her any and I could suit myself about it.' So I immediately had Rev. Wm. Beck to send for a bottle. Practically without hope for recovery, I insisted that she try the Alternative, which she did. I am glad to say that she soon began to improve. Now she works as hard as ever, weighs twenty pounds more than she ever did before she took sick, and is in good health. She frankly says she owes her life and health to Ekman's Alternative."

(Signed Affidavit) J. S. GRIMMER. Ekman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by all Riker-Hoegman Drug Stores and other leading druggists. Ask for booklet telling of recoveries, and write to Ekman Laboratory, Philadelphia, Pa., for additional evidence.

The Formal Presentation

of
New Modes for the
Younger Generation

The outfitting of young girls from 6 to 18 years is one of our specialties. We have carefully studied the growing girl as she is at all of these ages, and have designed our apparel in such perfect sizes that alterations are unnecessary in nine instances out of ten. For the girls who are quite grown up, but yet undeveloped, we have special sizes which are called juniors—13, 15 and 17 years. This apparel is in specially designed styles that are up to the minute with Fashion and yet are girlish. For these girls we will also make apparel to order.

Simplicity is the keynote of every dress, suit and coat in this Display. When we have copied imported models—which we have in many instances—they have been those for young girls, and not for women. This simplicity is beautiful, because Gimbel Apparel is carefully made of the best materials.

This Display will afford a larger selection than we have ever before been privileged to present. In Tailored Suits for young women, alone, there are fifty styles. In Dresses, there are all kinds from those of gingham and serge for school wear to beautiful party frocks. And there are Coats for school, athletic and party wear.

Wide-Awake Boys Are Invited to Bring
Their Parents to See This Fine Assemblage of
Gimbel Fall Clothing for Boys

Making appropriate clothing for boys is a fine art that comes only by much study.

The tailors who made this Gimbel clothing have been learning how for years. They are the best in their class, just as this clothing is the best in its class.

If parents and their boys knew as well as we do, the positive merits of Gimbel Clothes, there would be no question where the Fall or Winter Suit or Overcoat would be bought.

The new styles are all here, and they are mighty handsome. Fabrics are pure wool, and remarkable for their fine patterns and colorings. Clothing made from them simply couldn't be ordinary. The style of the tailoring is just as good as the cloths are. There are many new ideas.

For older boys, there are single or double-breasted Norfoks, with shirred back; some with removable belt; new styles in plain double-breasted Suits. There are many handsome novelty effects for the smaller boys.
